Water is the most basic and vital need of all, but it's scarce and unpredictable in many of the world's poorest communities. Families without clean water are trapped in a deadly cycle of poverty, poor health and premature death.

By coming together and raising £1,200 you can provide life-changing access to water, including building wells and lakes, and implementing irrigation systems so the whole village can benefit – now and into the future.

“When the children return home from school, they don't need to go far for water now. I used to walk really far – one hour away. Then I had to carry the water back home. Life has changed for good. I am thankful and I feel very happy indeed.”

– Julien, Rwanda
